

BUYER BEWARE:

COSTS DON'T STOP AFTER INITIAL LCD PURCHASE

62% of AV integrators expect LCD video walls to require service at least once per year.

49% of AV integrators expect hidden costs in mounting following the initial investment in an LCD video wall.

42% of direct buyers of LCD video walls expect hidden costs in managing LCD heat output.

45% of direct buyers of LCD video walls expect display malfunctions to result in product replacement more than a quarter of the time.

While the initial investment in an LCD video wall may be within your budget, you might not say the same about the hidden costs that follow. At NanoLumens, we have decided to concentrate on producing the highest quality LED products. **And the best part? No hidden costs.**

Contact our team today to learn more about NanoLumens' custom LED solutions.
